SignWriting Workshop La Jolla 2013

Topics & Lodging

July 1 – 3 & July 5 - 6

At the La Jolla Recreation Center

Instruction will be flexible, and presented in this order:

SignWriting Basics

For all levels. Everyone receives the SignWriting Basics Manual. Advanced signwriters will benefit more from this session than they may imagine ;-)

Read SignWriting Literature

Learn to read ASL Wikipedia articles, ASL children's stories, ASL books, and learn to read other sign languages too. Learn to "sign out loud" while reading, and learn to read ASL silently, for speed and comprehension. Speed reading in ASL is a skill.

SignWriting Hand Symbols

It will be fun to see photos/animation of Hand Symbols, and discuss palm facing and hand/finger directions. We hope to give you a new manual: ASL Hand Symbols.

SignWriting Movement Symbols

Adam Frost has developed excellent videos that teach & review movement & contact symbols. New materials will be introduced as well.

SignWriting Facial Expressions, Body Movement, Timing & Dynamics

Learn SignWriting Facial Expressions, Head/Body Movement, even dynamics and timing of movement. You will be amazed so much can be written!

July 4th... Write SignWriting by Computer (in Valerie's home)

Individual signs and full documents can be written on the Internet. Bring your laptop. Computers will also be there at the workshop, and there is WiFi. Several software programs will be introduced, including how to post Wikipedia articles. And we will party after we are done – Happy July 4th!

July 7th... SignWriting Handwriting (Sunday at Valerie's home)

You don't need a computer to write...just a pen and paper. This last session gives you a useful daily tool for jotting down notes in ASL for personal use. A fitting end to a fun week – and a light lunch on Val's deck ;-)
